

Quality Apps, Without Compromise.

Who says you can't have it all? With Mosaic you can build the highest quality, custom app - in a matter of hours.

MOSAIC

by Blackboard Mobile

mymosaic.com

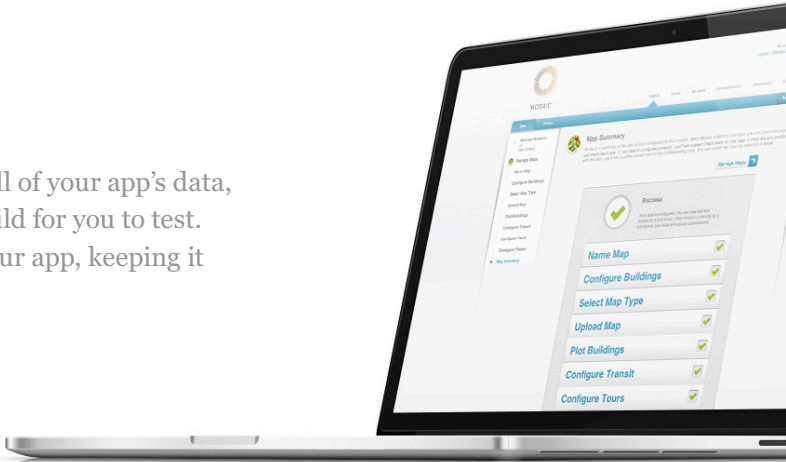

Create, Launch, Track - All in One Place.

With Mosaic you can consolidate all of your district and school resources, improve communication with all stakeholders, and increase parent engagement. Mosaic is the only solution that pairs the value of a web-based management system with the expertise of a Client Solutions Team to help you create the best possible app for your community.

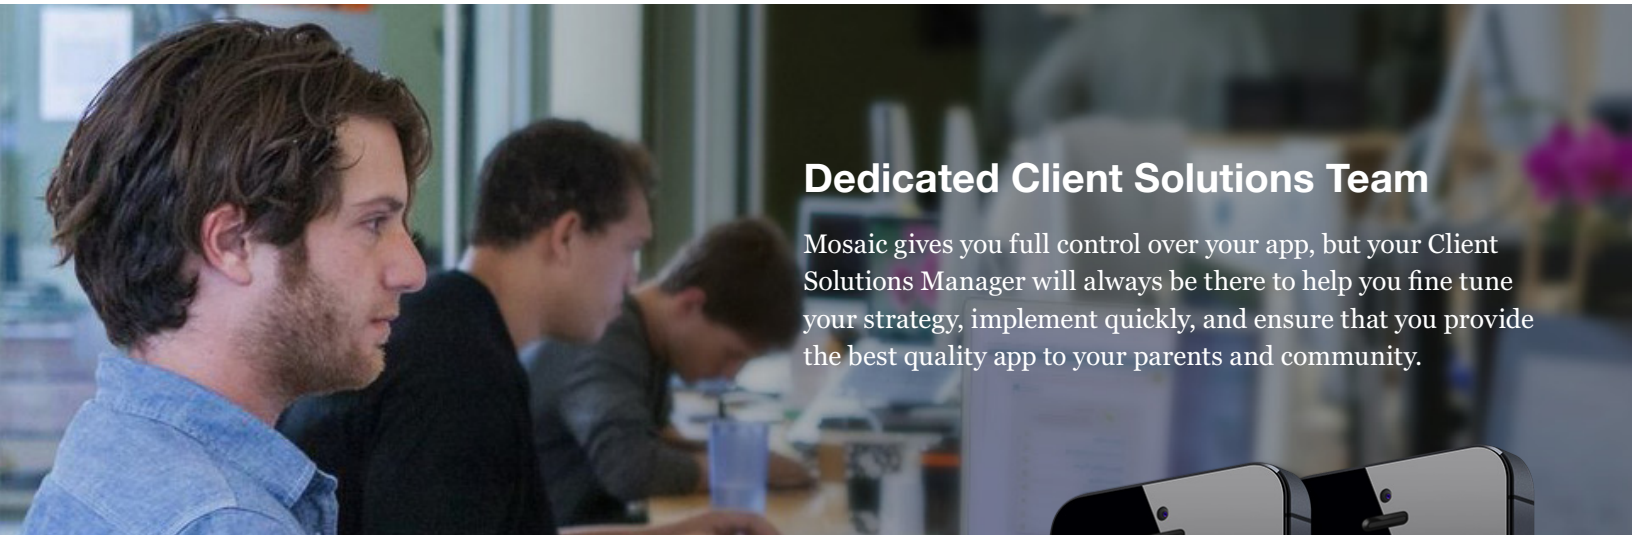

Web-Based Management

Mosaic’s web-based management system lets you manage all of your app’s data, customize the design, and immediately create a working build for you to test. Over-the-air data changes make it easy for you to update your app, keeping it fresh and relevant to your users.

Dedicated Client Solutions Team

Mosaic gives you full control over your app, but your Client Solutions Manager will always be there to help you fine tune your strategy, implement quickly, and ensure that you provide the best quality app to your parents and community.

Turnkey Features

Help them connect with your school through real-time news updates, athletics and event calendars, bus schedules and more. It’s everything they need to know about your school, in the palm of their hands.

Detailed Analytics

Your mobile strategy is always evolving, so your app should be too. Our built-in suite of analytics enables you to track the success of your app and inform future improvements.

It’s More Than an App.

Your mobile presence is about more than just an app. It’s about representing your district or school in the best way possible, increasing the value that you bring to the community, and delivering a proof of concept for the quality of education that you provide. Mosaic is the only solution that is fully equipped to help you reach your goals - delivering the best experience and highest quality apps to you and your users.
