ASYNCHRONOUS VS SYNCHRONOUS

#VTA2020

SYNCHRONOUS INSTRUCTION

SYNCHRONOUS

PROS

MOST CLOSELY RESEMBLES
TRADITIONAL CLASSROOM
INSTRUCTION

.....

BUILDS COMMUNITY AND CONNECTION

.....

GREAT FOR SMALL GROUP
INSTRUCTION

.....

BOTH TEACHERS AND STUDENTS CAN
GET FEEDBACK AND ANSWERS TO
QUESTIONS IN REAL TIME

.....

CONS

REQUIRES HIGH SPEED INTERNET. NOT
ALL STUDENTS WILL HAVE THE
BANDWIDTH TO HANDLE VIRTUAL
MEETINGS

.....

LESS FLEXIBILITY FOR
FAMILY/STUDENT SCHEDULES

.....

NOT AS INDIVIDUALIZED

.....

DIFFICULTY CREATING A SPACE FOR
REFLECTION

.....

ASYNCHRONOUS INSTRUCTION

ASYNCHRONOUS

PROS

STUDENT-PACED, SO STUDENTS CAN
MOVE THROUGH LEARNING AT THEIR
OWN PACE UNTIL THEY REACH
MASTERY

.....

CAN BE HIGHLY INDIVIDUALIZED

.....

LEARNING CAN HAPPEN ANYWHERE
AND AT ANY TIME

.....

MORE OPPORTUNITIES TO
INCORPORATE MULTIPLE TOOLS AND
SHARE MULTIPLE PERSPECTIVES

.....

CONS

REQUIRES A TEACHER TO BE MORE
INTENTIONAL ABOUT CREATING
OPPORTUNITIES FOR CONNECTION AND
COMMUNITY BUILDING

.....

REQUIRES SOME UNDERSTANDING OF
HOW WE LEARN ONLINE DIFFERENTLY
THAN WE LEARN IN TRADITIONAL
SETTINGS

.....

FEEDBACK FROM TEACHER IS NOT
IMMEDIATE

.....

MORE RESPONSIBILITY ON THE
STUDENT TO STAY ENGAGED AND
FOCUSED

.....

**WHAT SHOULD BE LIVE AND WHAT
SHOULD BE STUDENT-PACED?**

Reflective Moment

Think back to the last time you delivered an online lesson or observed an online lesson:

- Was Active Learning present?
- Were there places in the lesson that could have better utilized Active Learning to engage and motivate students?

HOW?

Student to Student

- Discussions & Debates
- Student Showcases
- Group Work & Breakout Rooms
- Peer Teaching

Student to Content

- Virtual Field Trips
- Interactive Virtual Classroom Layouts, ie FunRetro or Kahoot
- Poll & QA Pods as Exit and Entry Tickets
- Case Studies

Student to Teacher

- Individual Virtual Classroom Sessions
- Regular Progress Checks using Phone & Video Calls
- Video Camera use between teacher and student
